LOCAL & GENERAL NEWS.

Music at the rink to-morrow night.
Williams' dancing school this
evening.

Hurdle race at the Yosemite rink
on Friday night.

The expected dramatic company
did not come by the Australia this
morning.

SALLY Black is up for sale and will
be knocked down on Thursday the
29th instant.

A SPECIAL meeting of Hawaiian
Lodge, No. 21, F. & A. M., will be
held this evening.

A MEETING of the W. C. T. U. will
be held at the Y. M. C. A. Hall to-
morrow afternoon, at 2:30.

The center of H. E. McIntyre &
Brother's store is prettily decorated
with fine plants, pears and grapes.

Mr. L. J. Levey will hold a special
sale of onions, potatoes, and apples,
at his salesroom, to-morrow at noon.

SURVEYS are being made and work-
men are making ready to lay the new
line of pipes along Nuuanu Avenue.

The regular monthly dividend of
the People's Ice and Refrigerator Co.
will be payable at the company's
office to-morrow.

MESSRS. Schaefer & Co. are now
landing from the Birmah material for
restoring the town within fire limits,
viz., bricks and cement, besides a
variety of liquid importations.

Ma. Nolte received a large and
handsome portrait of his wife and
daughter, by the steamer this morn-
ing. Miss Nolte has grown consider-
ably, and possesses a womanly look.

ANYONE omitting to read Mr.
Lyon's notice of auction sale for to-
morrow, at 10 o'clock A. M., may miss
an opportunity to purchase at a
moderate price an article or articles
that he or she may be badly in need
of.

MR. W. L. Wilcox, Interpreter of
the Legislature, is suffering from a
severe cold to-day, which renders him
hoarse. It is a wonder that all the
talking he has to do for the assem-
bled wisdom has not worn his throat
out long ago.

News was telegraphed to San
Francisco before the leaving of the
steamer of the death of Dr. Hiller-
brand, a gentleman well known
throughout these islands. The Doctor
died in Heidelberg, Germany, on the
13th instant.

THERE was a narrow escape from a
serious collision between a grocer's
wagon and a hack at the corner of
Queen and Richards streets, at noon
to-day. The wagon came down the
latter street and turned the corner
at a dangerous speed.

THE public are invited to the liter-
ary exercises of the Royal School
boys, at the Y. M. C. A. Hall this
evening, at 7:30 o'clock. The annual
oral examinations of the school will
be held in the schoolroom to-morrow,
to which the public are also invited.

A GENTLEMAN doing business in
Honolulu and advertising in the
BULLETIN received a letter from
Sweden recently, soliciting the Hon-

olulu gentleman to send him a collec-
tion of Hawaiian stamps, and stating
that he had been induced to write by
seeing an advertisement in the DAILY
BULLETIN.

WHILE caulkers were working near
the stern post of the barkentine
Morning Star this afternoon giving
her a few finishing touches of the
hammer, preparatory to sailing, some
defective planks were discovered. It
was nothing serious, only a little
dry rot above the water line. The
sailing of the vessel has been post-
poned for a day or two.

A NEW boiler for China Engine
No. 5 has been ordered from the
Eastern States. It would cost be-
tween ten and twelve hundred dollars
to have the boiler made here, but
sending abroad for it several hundred
dollars will be saved. It was during
the late conflagration that the boiler
was ruined. The engineer had about
60 pounds of steam on but little or
no water in the boiler.

MESSRS. Lewis & Co., grocers, will
keep open their store a little later
than usual this evening, for the ac-
commodation of their customers, who
are making a heavy run on fruit,
fish and vegetables by the Australia
to-day. Everything here is in
good condition, and is of excellent
quality. In the line of fruit may be
specially mentioned plums, peaches,
pears, nectarines, and grapes. At 3
o'clock the show windows looked
magnificent, but the beauty is being
rapidly demolished.

A GRAND excursion to the Volcano
is on foot. Influential parties are
about to have pamphlets printed,
describing the late actions of the
Volcano, and forwarded to Mr. R.
W. Laine, at San Francisco, for cir-
culation. The Oceanic S. S. Co. are
willing to reduce their rates to \$100
for the round trip for the members of
the G. A. R., and it is believed that
if the scheme is properly managed,
several hundred members of the G.
A. R. will gladly embrace the oppor-
tunity of seeing the Crater of Kilauea
in all its grandeur.

To-day Mr. F. Horn adds an ice
cream parlor to his confectionery
establishment, on Hotel street. A
pretty decorated and comfortably
furnished room has been set apart
for that purpose. In response to an
invitation, members of the press in-
spected the premises and tested the
cream and cake last evening, and
were unanimous in their verdict of
approval. Not only can persons pro-
cure a dish of delicious ice cream, to
consume on the premises, any hour
of the day and evening; but orders
for any quantity will be supplied at
short notice to people at their homes.

ELECTRIC LIGHT.

The electric light, the assembly
of military companies, and the tea
party last night drew a tremendous
crowd. From Richard street to the
entrance of the Government build-
ing was a dense throng of spectators,
numbering in all fully 5,000. The
electric lights, of which there were
5, at various points, flooded the
neighborhood with soft but brilliant
light. Society people in evening
costumes promenaded Palace Square
and listened to the music of the
Hawaiian Band. The native mili-
tary companies, commanded by His
Majesty the King, who was assisted

by Major Baker Adjutant Baker
and Col. Lauka, on horseback, re-
viewed the troops and marched
them into the yard of the Govern-
ment Building, where arms were
stacked and ranks broken for the tea
party. A number of tents were
erected in the yard, where coffee, tea
and ice-cream was served to the
soldiers. At 10 o'clock the specta-
tors began to disperse, and at 11
o'clock the soldiers returned to their
quarters. Mr. Berger is to be con-
gratulated upon the success of the
exhibition.

POHUKAINA GIRLS' SCHOOL.

The public exercises, at the close
of this school, prior to the vacation,
took place yesterday. An immense
crowd of spectators was present.
Not only were the two large school
rooms densely packed, but every
square foot of space on the veran-
dahs was occupied. The spectators,
many of whom were parents of the
pupils, gave close attention to the
exercises. With very few excep-
tions, the spectators were native Ha-
waiians. It was evident throughout
the progress of the examination that
the native element is possessed of a
laudable ambition to keep pace with
the foreigner in the pursuit of liter-
ary wealth. The parents and friends
of the Pohukaina girls are fortunate
in the teaching ability of the accom-
plished ladies in charge of the
school. Mr. and Mrs. Lechler were
present among others, and seemed
to be deeply interested in what they
saw here of the success of educa-
tional work among the Hawaiians.

The singing and marches had good
organ accompaniments from an in-
strument in Miss Corney's room,
played by a young lady friend, to-
gether with choice violin music fur-
nished by bandmaster Berger. The
school is organized in three grades,
and is carried on in two separate
buildings. The first (primary)
grade is in charge of Mrs. M. A.
Wood in one building. The school
in this building, as was stated in the
BULLETIN about a year ago, is almost
exactly twice too large for any one
teacher. It is utterly impossible
that school work, either in quantity
or quality, can be done satisfactorily
in this grade until another room and
an additional teacher are provided.
The teacher is probably the only
line of work in which it is impossible
for one person to perform the work
of two. Two newspaper articles may
be compressed into one, and in the
case of the Advertiser, for example,
such a feat would be to the man-
ifest advantage of the few people
studying political economy under
the editorial guidance of that paper.

But it is a fact, as well established
as the law of gravitation, that, in
the school room, the call to over-
take the work of two, renders it im-
possible for any teacher to perform
more than half the work of one.
Mrs. Wood's exhibit of work among
the little folks in her charge, is very
creditable to her skill and persever-
ance in the face of extreme diffi-
culties.

Here is a splendid opportunity for
the Hawaiian legislators to confer a
gift of inestimable value upon the
native population of this city. An
appropriation of say \$2,000 for the
biennial period will probably settle
the matter. The improvement need
not entail a cent of additional tax-
ation. It will only be necessary to
divert a couple of thousands from
the Board of Genealogy fund or
from some of those wild cat expedi-
tions to foreign countries for which
the Assembly is asked to lay out a
matter of \$30,000. The second and
third grades are in charge of Miss
W. P. Luce whose department is
connected, as a class room, with
that of the Principal, Miss S. F.
Corney whose special division com-
prises the fourth, fifth and sixth
grades.

The programme of the day was
very elaborate and comprised an ex-
haustive examination of the whole
six grades. Classes were examined
in every branch of school work from
A B C to Astronomy. The quality
of the exercises was such as to fully
sustain the high reputation of the
school. The girls showed that readi-
ness and deliberation in their an-
swers which, to connoisseurs is ac-
cepted as a fair test of careful and
thorough training. It is often
charged that the performances at
exhibitions of this kind are too good
to be bona fide; but on this occa-
sion, if any suspicions of the kind
existed, the immense three-page
printed programme was, without
any further evidence, sufficient to
dissipate any such notion. The
calisthenic exercises, which are a
special feature of this school, were,
if not perfect, as near to it as need
be. These exercises afforded no
little amusement to the spectators.
Some very fine specimens of draw-
ing by the pupils, were exhibited.
The penmanship is of a very high
order of excellence. The practical
results of the calisthenics are patent
to observation in the fine physiques
and healthful appearance of all the
pupils. All concerned in the suc-
cess of the Pohukaina Girls' School
are to be specially congratulated on
the exhibit of yesterday, and no
doubt many went away with vain
though pardonable regrets that the
educational privileges of the parents
had been so meagre in comparison
with those enjoyed by the juvenile
portion of the present generation.

FOREIGN NEWS.

(Dates to the 15th inst. ex S. S.
Australia.)

GREAT BRITAIN.

The election returns up to the
14th report total votes polled Uni-
onists 1,399,623, Gladstonians
1,320,648. At midnight the totals
are: Conservatives and Unionists,
385; Gladstonians, 252. Conserva-
tives and Unionists estimate the
final result as follows: Conserva-
tives, 323; Liberal-Unionists, 73;
Gladstonians, 188; Parnellites, 86.
The result of the elections is re-
storing commercial confidence in
Dublin. Markets are buoyant. Bank
of Ireland and Irish Railway shares
advancing.

An Orange lodge in Coalistan, a
small village in County Tyrone,
Ireland, was attacked by a number
of men belonging to the National
League. The attacking party were
armed with rifles, and kept up a fire
for two hours on the lodge, the
police being powerless to interfere.

Armed moonlighters attacked and
took possession of two houses in
Freemount and Kanturk, Cork
County, where they entered and
severely beat the inmates.
Serious rioting broke out at Bel-
fast between the Catholics and Pro-
testants. Many stones were thrown
and revolvers were freely used. The
military was called out to restore
order, and many persons were in-
jured and sent to hospitals.

An extradition treaty between
England and the United States has
been signed. In addition to the
customary clauses, the treaty pro-
vides for the surrender of dynamite
miscreants.

UNITED STATES.

Milwaukee (Wis.), eleven dwell-
ing-houses, one boarding house, two
large barns, two warehouses, the
sawmill and planing mill, two car
loads of flour, 8,000,000 feet of
lumber and 5,000,000 shingles were
burned. The loss will be \$130,000;
insurance, \$50,000. Sixty men are
thrown out of employment and
twenty-seven families are left des-
titute. The origin of the fire is un-
known, but it is supposed to have
been caused from a freight-train engine.
The woods south of Romeo are all
on fire, and the men and women are
out fighting it as best they can.
Van Hosen's mill and buildings are
completely destroyed. His losses ag-
gregate about \$100,000.

The suffering from the long
drought in Western Texas is unpre-
cedented, rain to any extent not
having fallen in some localities for
fourteen months. The cattle are
starving. In many localities the set-
tlers are selling their farms for mere
trifles, and leaving for the East in
abject poverty.

Paul H. Hayne, the poet is dead.
Captain Akerly, of the British
steamship Kenilworth, which arrived
at Baltimore from port Antonio, Ja-
maica, reports that on June 27th
the island was swept by a tornado,
which created havoc with the property
of the natives and caused a loss es-
timated at \$500,000. The low lands
were inundated and great fields of
banana trees were destroyed. Many
vessels were torn from their moor-
ings, but as far as could be learned
no lives were lost.

At Oakland (Md.) a terrible
calamity occurred at a private resi-
dence where Cardinal Gibbons of
Baltimore and the Papal Nuncio
were holding a reception. The
house was filled with people, while
about two hundred others crowded
upon the large porch outside await-
ing an opportunity to enter. Sudden-
ly the porch gave way and the crowd
fell in a mass among the broken
timbers and debris. A scene of
great dismay at once ensued.
Women fainted, while the air was
filled with the cries of those who
were on the porch and exclamations
of horror from others outside. It
was first feared that many had been
killed, but fortunately no lives
were lost. About a dozen, however,
were more or less seriously bruised
and cut, but none fatally.

At Astoria, Oregon, on the 10th,
a fire broke out near the Columbia
Canning Company's establishment.
At the upper end of the town, which
but for strong efforts of the fire
companies would have been a disas-
trous conflagration. Five buildings
were destroyed; Mattson's saloon,
John Ostrom's boarding-house, two
buildings owned by A. H. Ander-
son, and C. J. John's boarding-
house. The total loss was \$10,000;
insurance, \$4,000.

MISCELLANEOUS.

A despatch from Yokohama an-
nounces the sailing on the 10th of
the second of the tea-laden ships
whose cargo is to be transferred to
the Canadian Pacific Railroad for
conveyance across the American
continent.

M. DeLespessé has issued spirited
circulars to shareholders in the
Panama Canal Company. In the docu-
ment he declares: "Despite all ob-
stacles, we shall march on. Appa-
ratus and machinery all ready. We
only require \$120,000,000 to com-
plete the canal in 1889. We shall
issue debentures forthwith to enable
France to complete her peaceful
conquest of the Isthmus of Pa-
nama."

The Directors of the Panama
Canal Company have approved De-
Lespessé's circular. The Company
will issue a fresh loan to the amount
of 600,000,000 francs, with large
premiums and frequent drawing.
The Government has withdrawn the

Panama Canal Lottery Loan bill
from the Chamber of Deputies.

Official organs, at Berlin, deny
the report that the Government in-
tends to convoke the Reichstag in
September in order to renew the
spirit tax proposals. They say the
Reichstag will not meet until De-
cember.

The Government has decided to
restore the Strasburg Municipal
Council, with an administrative
autonomy, which was suspended in
1872, and the German Commission
at Strasburg has been abolished.
Emperor William's sojourn at
Ems is notable inasmuch that he
improves in health and aspect. He
is able to take longer walks than
formerly, and has an elastic step and
healthy color.

An inventory is being taken of the
jewels left by the late King
Louis of Bavaria. In his chateau
at Berg there were found coffers
filled with diamonds, rubies and
pearls, watches and chains amount-
ing to a fortune.

A despatch from Rome of the
10th, gives the cholera returns for
the day: Brindisi, 135 new cases
and 46 deaths; Latriana, 32 new
cases and 15 deaths; Fontbona, 59
new cases and 21 deaths; Sanvita,
12 new cases and 3 deaths; Venice,
1 new case and 2 deaths; Codogna,
8 new cases and 1 death.

A Woman's Sufferings and
Gratitude.

A Voice from Austria.

Near the village of Zillingdorf, in
Lower Austria, lives Maria Haas, an in-
telligent and industrious woman, whose
story of physical suffering and final re-
lief, as related by herself, is of interest
to English women. "I was employed,"
she says, "in the work of a large farm-
house. Overwork brought on sick
headache, followed by a deadly faint-
ing and sickness of the stomach, until I
was unable to retain either food or
drink. I was compelled to take to my
bed for several weeks. Getting a little
better from rest and quiet, I sought to
do some work, but was soon taken with
a pain in my side, which in a little
while seemed to spread over my whole
body, and throbbled in my every limb.
This was followed by a cough and
shortness of breath, until finally I could
not sew, and I took to my bed for the
second, and, as I thought, for the last
time. My friends told me that my time
had nearly come, and that I could not
live longer than when the trees put on
their green new more. Then I hap-
pened to get one of the Seigel pamphlets.
I read it, and my dear mother bought
me a bottle of Seigel's Syrup, which I
took exactly according to directions,
and I had not taken the whole of it be-
fore I felt a great change for the better.
My last illness began June 1, 1882, and
continued to August 9th, when I began
to take the Syrup. Very soon I could
do a little light work. The cough left
me, and I was no more troubled in
bathing. Now I am perfectly cured.
And oh, how happy I am! I cannot ex-
press gratitude enough for Seigel's
Syrup. Now I must tell you that the
doctor's in our district distributed hand-
bills cautioning people against the
medicine, telling them it would do them
no good, and many were thereby in-
duced to destroy the Seigel pamphlets;
but now, wherever one is to be found,
it is kept like a relic. The few preserved
are borrowed to read, and I have lent
mine for six miles around our district.
People have come eighteen miles to get
me to buy the medicine for them, know-
ing that it cured me, and to be sure to
get the right kind. I know a woman
who was looking like death, and who
told them there was no help for her,

that she had consulted several doctors,
but none could help her. I told her of
Seigel's Syrup, and wrote the name
down for her, thinking it might make no
mistake. She took my advice, and the
Syrup, and now she is in perfect health,
